

Professional Summary

Frontend Developer with 3 years of experience, including 3 years working with React.js and Next.js, and web design. I build responsive, user-friendly web applications and have a strong understanding of UI/UX principles. I enjoy turning designs into clean, efficient code and creating smooth, high-performing user experiences.

Experience

Frontend Developer

VGL Group - G-135 sitapura | 2025 - Present 📍 Jaipur, Rajasthan

- Managed Business Manager (BM) operations for VGL Group, ensuring smooth platform administration and performance

Frontend Developer

TechnoSoftwares - IT-Zone sitapura | 2022 - 2025 📍 Jaipur, Rajasthan

- Developed and maintained responsive web applications using React.js and Next.js, focusing on performance and scalability.

Web Designer

VGL Group - Zero zone sitapura | 2021 - 2022 📍 Jaipur, Rajasthan

- Worked as a web designer for 6 months, focusing on designing responsive web applications.

PROJECTS

HOP Project - React.js

Worked as a React.js developer on a web application for an electric bike company, focused on showcasing EV models, booking test rides, and managing online sales. Built responsive user interfaces with React and Next.js, integrated booking APIs, and optimized the user journey from product exploration to test ride scheduling and purchase.

TRP World - Next.js

Worked as a Frontend Developer using Next.js for TRP World, a comprehensive B2B travel platform under Itinerary Planner Pvt. Ltd. The platform connects businesses to over 35 integrated suppliers and 2.5 million+ properties worldwide. My responsibilities included developing responsive user interfaces, integrating APIs for real-time property and booking data, and optimizing performance for a seamless user experience. I collaborated with design and backend teams to deliver a fast, scalable, and user-friendly travel booking solution used by 650+ agents globally.

TRP World - Admin - React.js

Worked as a React.js developer on the TRP World Admin Panel, a backend management system for suppliers and internal agents. The platform enables suppliers to view and manage bookings, create offline bookings.

TJC.UK

Led the development of custom React components aligned with the company's brand guidelines to deliver a seamless and consistent user experience. Simultaneously managed Salesforce Business Manager (BM) operations for the VGL Group
